

PICTURESQUE | *Mountain Top Sanctuary*

After being referred to Edgewood by a family friend, the owner's expressed their wishes to Brian, including guest bedrooms for each grandchild, massive kitchen/dining/gathering space inside for family gatherings, thoughtful and functional outdoor living space to enjoy the year round wooded environment with territorial views. A fun game room space above detached garage for the "boys", his and her offices, as well as a large wine cellar, work out room, music room, theatre room and mechanical in daylight basement, with an intimate covered guest receiving/parking area at the entrance.

Our design staff listened closely, took notes, and interacted often and directly with the clients to provide creative architectural design input in order to meet their goals, all the while keeping a watchful eye on budget and schedule.

Reference Letter from Owner:

I have been asked to explain my experience with Edgewood and Brian Schafer-Vinson. To do this, it is important to know that I am a successful General Contractor managing my company for over 40 years. Working with Brian has been an absolute grand experience. Brian impressed me every day with his knowledge and business ethics. From the initial sketches, to permit drawings, to foundation and then to interior finishes, Brian has been the most important person helping me make the right decisions. Brian not only built a home for me and my family, he helped me build a legacy home that I hope is in my family for many decades. I have been involved in literally thousands of projects, and Edgewood and Brian made this project the most wonderful working experience. I cannot thank Brian enough for the work he and his team have completed.
